EASYBOARD®

PRESENTATION HOLDER

**STOP LAMINATING & MOUNTING YOUR
PRESENTATION MATERIALS &
START CHANGING DISPLAYS FAST & EASY!**

- Stop sending your materials out to be mounted. Our Easyboards will save you time & money by eliminating the labor, materials & time spent attaching each display to a backing. Best of all, you can re-use an Easyboard over and over again.
- Very easy to use. Just peel the flexible plastic front from the rigid backing, insert your materials and reseal. Ten seconds or less!
- Glare resistant cover is bordered in a Black rim & protects displays from being torn or written on. Custom color borders and logo inserts can easily be included (please ask for details). Commercial grade Velcro or a magnetic lining holds the cover tightly to the back. You can even write messages with Expo Low Odor Dry Erase Markers & erase them clean.
- Choose from plenty of different sizes beginning with our 8-1/2" x 11" counter size to our large 36" x 48" display boards. Custom sizes available too (please ask for details). Most board sizes weigh less than 2 lbs. each & can come either single or double sided. Carrying cases are also available.
- Easyboards are virtually unbreakable & last for years with proper care. Display your boards on an easel or hang from a wall or ceiling. Easyboards can even be mounted permanently to a wall. Display kits may also be purchased & include extra Velcro, magnetic strips and a removable easel.
